Key Findings

- Action has the largest number of movies in the dataset (98).
- Drama has the highest average rating at 7.61/10.
- Horror has the lowest average rating at 6.42/10.
- 2011 is the most represented release year with 33 movies.
- The most-voted movie is Dark Empire, with 1,591,980 votes.
- Rating and votes have a weak positive correlation (0.073), suggesting popularity by votes is not a strong predictor of rating.
